- Terraform
- AWS
- ArgoCD
- Jenkins
- GitHub Actions
- Prometheus
- Grafana
- Bash
- Python (scripting)

Certifications

- Certified Kubernetes Administrator (CKA)
- HashiCorp Terraform Associate

Education

B.E. Electronics & Telecommunication, Pune University, 2018

Profile

Platform engineer running production k8s clusters on AWS EKS. Infrastructure as code with Terraform, GitOps with ArgoCD, CI/CD with Jenkins and GitHub Actions.

Experience

Senior DevOps Engineer, Nimbus Technologies (Sep 2020 – Present)

- Operate 14 EKS clusters (k8s 1.2x) hosting 300+ microservices.
- Wrote reusable Terraform modules for VPC, EKS and RDS; reduced environment setup from 3 days to 2 hours.
- Set up Prometheus/Grafana monitoring and on-call alerting.

Systems Engineer, Harbor Networks (2018 – 2020)

- Automated Linux server provisioning with Ansible; built Jenkins pipelines.
